

October 15, 1997

TO: ALL ACURA DEALERS and GENERAL MANAGERS,

ACURA Division is pleased to announce the 1998 **Integra** models, featuring freshened styling and added features sure to keep Integra at the top of your customers' wish list.

Both front and rear bumper facias have been totally redesigned, with flush mount headlights and a more aggressive style. A new color palette matches this style with some of the most exciting colors on the street: Super Sonic Blue Pearl and Cayenne Red Pearl. Finally, for the third straight year, GS-R gets a new wheel design (differentiating it even more from the GS trim level). Inside, Integra boasts new upholstery, more features and the availability of Parchment interiors (replacing Sandstone).

Integra 3dr.

All Trim Levels

- Pre-wired for Accessory Security System
- Auto wiper with Washer (Wipers automatically cycle with washer use)
- Internal Hatch Release is dropped, with an external latch mechanism added (per FMVSS206 regulation). Tailgate is now linked to the Power Door Lock system on LS and up trim levels with a separate Power Tailgate Lock switch on RS driver's side door panel

RS

- New wheel covers

LS

- 14" Machined-finish Alloy Wheels
- Height & Tilt adjustable Driver's Seat
